Associates

If you work in technology:
look for a cooperative in your
area or start a new one,
we can help you.
Equity between the associates
and respect at work
transfer to all areas of life.

Customers

If you are looking for a
technology partner and
consider that social
responsibility is important,
do not hesitate to contact a
cooperative.
As the United Nations
proclaimed in 2012:
**"Cooperative companies
help build a better world"**
